Title: Refugee women’s experience of the resettlement process: a qualitative study

Version: 0 Date: 27 Aug 2019

Reviewer: Jodie Avery

Reviewer's report:

An interesting paper, but in need of a rewrite as the writing does not flow, and there are a few spelling mistakes scattered throughout.

Also, there is continual swapping between the words 'migrant' and 'refugee', sometimes interchanging when they are different concepts - so this needs to be rectified.

It would also be good to see some kind of demographic breakdown of the participants in this study.

In the discussion, it is revealed that the interviews were conducted in Arabic and translated to Swedish - this is not addressed in the method. I am worried about the the translation between three different languages and how this will affect data quality.
