Reviewer's report:

Dear author,

Thank you for providing new analysis considering the weightage of the samples. Unfortunately, I could not find the description on how the weightage was used in the analysis.

Kindly provide a concise description on how you deal with the weightage in your analysis and present both the unweighted and complex sample analysis (weighted) side-by-side for better comparison.

You may also discuss the advantages of conducting and presenting complex sample analysis.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
