Reviewer's report

Title: Antinociceptive and anti-tussive activities of the ethanol extract of the flowers of Meconopsis punicea Maxim.

Version: 2 Date: 30 March 2015

Reviewer: Giuseppina Negri

Reviewer's report:

Minor essential revisions

Introduction
Page 5, line 73 – The mechanism of action was elucidated?

Methods
Page 9, line 158 – with drugs (explain better, which?)
Page 9, line 170 – with drugs (explain better, which?)
Page 10, line 178 – administered as in 2.5.1. (which is this number)
Page 10, line 179 – with drugs (explain better, which?)
Page 10, line 188 – with drugs (explain better, which?), administered as in 2.5.1. (which is this number)

Results
Page 11, line 215 – .....alkaloids and flavonoids were the main constituents? It is correct. There are others significant peaks in the chromatogram (Figure 2). Explain

Legends
Figure 2. HPLC_DAD chromatogram of the ethanol extract of M. punicea.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
