Reviewer's report

Title: Evaluation of Anthelmintic potential of the Ethiopian Medicinal Plant Embelia schimperi Vatke in vivo and in vitro against some Intestinal Parasites

Version: 3 Date: 6 May 2015

Reviewer: Lyndy McGaw

Reviewer's report:

Minor essential revisions:

1. The authors mention that they have previously published the method for isolation of embelin but have not referred to this in the Methods section.
2. Also in the methods section, second paragraph of the sub-section “In vitro Anthelmintic activity”, change “raid” to “rapid”.
3. The manuscript would still benefit from revision by a native English speaker.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
