Reviewer's report

Title: Effect of crude leaf extract of Osyris quadripartita on Plasmodium berghei in Swiss albino mice

Version: 2 Date: 30 April 2015

Reviewer: Michel Frederich

Reviewer's report:

This paper:
"Effect of crude leaf extract of Osyris quadripartita on Plasmodium berghei in Swiss albino mice" present for the first time a moderate antimalarial activity (in vivo) for Osyris quadripartita, a plant traditionnally used against malaria in several African countries.
The subject is in the scope of the journal and worth publication.
The bibliography is complete and in line with the subject developped.
The conclusions are sound.

Minor comment:
Please precise the statistical analysis which were realized in Table 3 and which p value has been used.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
