Dear Editor “BMC Complementary and Alternative Medicine”

We highly appreciate the detailed valuable comments of the referees on my manuscript. The suggestions are quite helpful for us and we incorporate them in the revised paper. You will note our changes/amendments are written in red color. We hope the Reviewers and the Editors will be satisfied with our responses to the ‘comments’ and the revisions for the original manuscript. However, if you need any further inquiries, please inform me. Thanking you in advance for your kind co-operation.

Sincerely yours,

Abdel-Tawab H. Mossa
