Reviewer's report

**Title:** Phytochemical capacity of Nitraria retusa leaves extracts inhibiting growth of melanoma cells and enhancing melanogenesis of B16F10 melanoma

**Version:** 5  **Date:** 26 May 2015

**Reviewer:** Adisak Wongkajornsilp

**Reviewer's report:**

The authors have responded to the major revisions, but not all minor revisions. The remaining minor revision is:

1. The methanol extract should run from low to high concentrations in the same way as other extracts.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
