Reviewer's report

Title: Complementary and alternative medicine offered within Norwegian hospitals

Version: 2 Date: 20 May 2015

Reviewer: Tobias Sundberg

Reviewer's report:

Thanks for submitting this interesting article.

Minor essential revision

- Page 6, line 122-124: Verify n=21 for both number of local health authorities and number of private hospitals. The text might be more clear to the reader if you throughout the manuscript refer to "public hospitals" n=59 (rather than local health authorities), and "private hospitals" n=21, respectively.

- Add a copy of the questionnaire to the manuscript as an appendix.

- In each of the tables, add short statement of the statistical test that was used for the analysis presented in that table (Tables 2-6).

- Table 7 is not referred to in the text. Revise the text or remove the table.

- Consider reporting all percentages (%) with the same level of precision/decimals throughout all the tables and text.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
