Reviewer's report

**Title:** Quantitative Structure-Activity Relationship of Molecules Constituent of Different Essential Oils with Antituberculosis Activity against Mycobacterium tuberculosis and Mycobacterium bovis.

**Version:** 2  
**Date:** 8 May 2015  
**Reviewer:** Abdella Gemechu

**Reviewer's report:**

Generally, the manuscript was written well and interesting and has great value in TB new drug discovery. But it requires minor correction of font used in the body required to make it clear and readable. E.g Line 360, 361, 362 contains "rectangle" in brackets.

**Level of interest:** An article of outstanding merit and interest in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**
