Reviewer's report

Title: Investigation of the mechanisms of Angelica dahurica root extract-induced vasorelaxation in isolated rat aortic rings

Version: 4 Date: 23 September 2015

Reviewer: swati Omanwar

Reviewer's report:

The authors have been quite thorough in answering to the points raised. I think the answer to question 6 and 7 should be part of discussion specially question 7.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
