Reviewer's report

Title: Effect of acustimulation on nausea and vomiting or hyperemesis in pregnancy: a systematic review of Western and Chinese literature.

Version: 4 Date: 4 November 2015

Reviewer: Caroline A Smith

Reviewer's report:

The authors have discussed and revised their manuscript in response to the reviewers' comments. One area both reviewer's comment on is the pooling of the studies with different control groups. Although highlighted and discussed as a limitation can the suggestion to pool studies of similar designs not be addressed. This may explain the some of the heterogeneity.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
