Reviewer’s report

Title: Complementary and Alternative Medicine Use: Results from a descriptive study of pregnant women in Udi Local Government Area of Enugu State, Nigeria.

Version: 0 Date: 30 Jan 2017

Reviewer: Alfred Laengler

Reviewer's report:

The authors present data that are already 5 years old. The cited literature is largely not current but rather historical. Since the data refer to a narrowly circumscribed region with 100,000 inhabitants and likewise show little differences to other data published on this topic, the interest of the international scientific community for these results should not be present.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
