Reviewer’s report

Title: The immunomodulatory activities of licorice polysaccharides (Glycyrrhiza uralensis Fisch.) in CT 26 tumor-bearing Mice

Version: 2 Date: 23 Oct 2017

Reviewer: Sudeep Gautam

Reviewer's report:

Flow cytometry data (table-3) can be presented as Scatter Graphs along with density plots. Thank you. We choose tables to show clear figures. We have also added a figure for dot plots. Comment: Scatter graph is not acceptable as the figure quality is extremely bad.

Thank you. We have removed the figure due to its poor quality and retained the table 3, page 10.

Comments:

This is inappropriate. The Flow cytometry data (Scatter Graph) is very important part of the current study and provides more information. Authors need to improve the figure quality and kindly add this graph (with good quality) in the revised manuscript. They have all the data to do it easily.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing
