Reviewer’s report

Title: Decreased risk of falls in patients attending music sessions on an acute geriatric ward: results from a retrospective cohort study

Version: 2 Date: 12 Dec 2017

Reviewer: Yan Du

Reviewer's report:

This manuscript examined the effects of music listening on risk of falls in hospitalized patients. It's an important topic as the population is aging rapidly. Overall, the manuscript is well conceptualized and well written. I recommend "accept" after a minor revision. Please see my comments in the attachment.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
