1. Qubaibabuqi is a marketed drug mainly used in China. Are there any reports of adverse reactions and hepatotoxicity of Qubaibabuqi in China (Reports not limited to English language)? If the author can add some information, it will help to further clarify the hepatotoxicity of the drug.

2. It is better for the author to supplement the treatment plan of patients after admission and analyze the corresponding effect of treatment, which will be helpful to the treatment of patients with similar liver injury.

3. As a review of hepatotoxicity of Psoralea corylifolia, some new literatures have been published. These studies have explored the mechanism of hepatotoxicity of Fructus Psoraleae. It is suggested that the authors add these references. Such as:
