Title: Phytochemical, In-Vitro Biological and Chemo-preventive Profiling of Arisaema jacquemontii Blume Tuber Extracts

Version: 1 Date: 24 Jun 2019

Reviewer: Hari Prasad Devkota

Reviewer's report:

Authors have revised manuscript according to the comments provided.

I suggest them to use standard abbreviations for solvents like CHCl₃ (3 in subscript) for chloroform and EtOAc for ethyl acetate in all sections including figures and tables.

I also recommend authors to have more detailed introduction about petrochemicals including theor synergistic activities with drugs referring few relevant papers https://www.sciencedirect.com/science/article/pii/S0009279718314820

English language should be corrected extensively as there are many errors of use of comma e.g. Arisaema jacquemontii, a medicinal plant is traditionally used in different diseases. In this study phytochemical, in vitro biological and chemo-preventive screening of A. jacquemontii was carried out.

should be corrected as
Arisaema jacquemontii, a medicinal plant, is traditionally used in treatment of different diseases. In this study phytochemical, in vitro biological and chemo-preventive screening of A. jacquemontii was carried out.

Please revise the manuscript carefully before submitting the final version.
