Title: Carica papaya extract in dengue: a systematic review and meta-analysis

Version: 0 Date: 31 Jul 2019

Reviewer: Shabnum Shaheen

Reviewer's report:

The chosen research work is interesting and fulfills the need of the time as Dengue is a critical emerging problem particularly in developing and Asian countries. The background and introduction are well explained and methodology is also comprehensive. Results are well described. Only a bit effort is needed to improve the language and a effort to check the references again is required.
