Reviewer’s report

Title: Effect of Nigella sativa and Its Bioactive Compound on Type 2 Epithelial to Mesenchymal Transition: A Systematic Review

Version: 0 Date: 07 Aug 2019

Reviewer: Wai Ching LAM

Reviewer's report:

This article is with clean content, interesting clinical topic, and appropriate methodology. Here are some points for further revision:

1. Try to involve more databases, such as EMBASE, and the Web of Science.

2. For the Discussion part, revised content should be focus on the articles included, especially the summary mechanisms gained from the articles, pros and cons of the experiment procedures in the included studies.

3. In part "3.2. Study characteristics", total number of articles included need to be corrected.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
