Reviewer’s report

Title: Alcohol extract from Vernonia anthelmintica willd (L.) seed counteracts stress-induced murine hair follicle growth inhibition

Version: 1 Date: 21 Mar 2018

Reviewer: Feng-Lin Yen

Reviewer's report:

The manuscript is very interesting. Authors revealed that AVE can attenuate the stress-induced hair follicle growth inhibition in C57BL/6 mice in vivo and in vitro, and may be used as an additive in hair growth product. Authors should be improved the resolution of all figures before publication.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
