Comments to the author:

In the manuscript by Feng F et al., the authors evaluated the Xiao-ai-ping injection adjunct with platinum-based chemotherapy for advanced NSCLC patients. The findings reported in this manuscript are potentially very interesting, however, some key issues need to be better revised.

1. Before going into scientific details, the authors should consider having a native English speaker, or English Language Editing Service - preferably with background in biology - to revise this work.

2. Please revised the Resolution Ratio of all figures, at least 300DPI.

3. The reference style should be arranged using Endnote Tool, according to the Introduction For Authors.

4. Some key references are missing, and please added. For example: The extract of Marsdenia tenacissima has been available in China as a patented Chinese medicine named Xiaoai-ping and is widely used for several cancers including NSCLC [PMID 30406035] (Page 13). In China, many kinds of patented Chinese medicine, used as adjuncive therapy, have gained popularity and revealed their potential effects in NSCLC patients [PMID: 30709582, 28414793] (Page 4). In China, many patented Chinese medicines have clinically integrated with standard chemotherapy in cancer patients for many years [PMID: 31552177, 30982492] (Page 13).
