Title: Determinants of Traditional Medicine Utilization for Children: A Parental Level Study in Tole District, Oromia, Ethiopia

Version: 1 Date: 06 Mar 2020

Reviewer: Trkulja V

Reviewer's report:

The manuscript has been extensively revised and is much improved. I believe that some English editing is still needed.

I would only suggest that parts of the subjects and methods is additionally improved to state or communicate the following message:

"The study aimed to assess prevalence of TM use in Tole District…(etc.). Exploratory logistic regression was performed to detect cultural, socio-demographic or other factors possibly related to the TM use".
(This should be the message, wording can be different).

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
