Reviewer’s report

Title: Prevention of Acute Radiation-Induced Proctitis by Aloe vera: a Prospective Randomized, Double-blind, Placebo Controlled Clinical Trial in Pelvic Cancer Patients

Version: 1 Date: 14 Feb 2019

Reviewer: Tommaso Cai

Reviewer's report:

The study seems interesting and well conducted. I have a comment about the sample size calculation. It is not clear what is the expected difference between the control and treatment group. This is an important parameter to take into account.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
