Reviewer’s report

Title: Anti-trichomonad activities of different compounds from foods, marine products, and medicinal plants: a review

Version: 0 Date: 18 Mar 2020

Reviewer: Isaiah Oluwafemi Ademola

Reviewer's report:

The paper describes the Biological evaluation of food, marine, and medicinal plant compounds against trichomonad parasites. The findings can have some interest, however the manuscript require a minor grammatical editing.

1. How save are the classes of food, marine, and medicinal plant extracts and their bioactive pure compounds with antitrichomonad activity in this review? The toxic effects of some of the agents described were not reviewed, therefore information on their toxicity should be included in the review.
2. Line 159- Recast sentence for clarity.
3. Lines 204-260: Remove the bullet points and write in prose.
4. Lines 279-281: Recast sentence(Check for error)
5. Lines 499, 521, 540, 554, 576, 624, 633: unbold (unless it's the journal's formal).
