Reviewer's report

Title: Anti-trichomonad activities of different compounds from foods, marine products, and medicinal plants: a review

Version: 1 Date: 27 Jun 2020

Reviewer's report:

The manuscript has been improved. But nevertheless it needs further correcture:

Although I would prefer another and clearer organization of the text and the chapter about vaginal dysbiosis is not shortened (as described in my first review) I accept the opinion of the authors.

35: The added last sentence of the abstract should be canceled. Instead of methodology should be described in a separate short chapter.

Table 1: The exact source should be written and not such common words as medicinal or ornamental plant (this maybe in an additional column)
121: tuberosum
153: from
184-185: check the sentence
188: what means „to identify the risk…”? Explain or cancel the sentence.
258: Does it belong to essential oils?
289: give the exact source of manuka honey (from which trees collect the bees the honey?)
341: which extract was so active?
381: three studies
416: cancel -protection of…
470: cancel Plant-derived
534-537: check the sentence
714: the named alkaloids induce adverse effects not only in some cells but also in vivo.

Publons Reviewer Recognition. Springer Nature can send verification of this review directly to Publons (a subsidiary of Clarivate Analytics). If you would like to take advantage of this service, please click on the “Yes” option below. Your name, email address, title of the reviewed manuscript, name of the journal, and date of your review submission (the “Review Data”) will then be transmitted to Publons upon publication of the manuscript. If you have already registered at Publons, they will notify you of the receipt of this review and update your profile as per your settings and their policy. If you are not registered with Publons, you will receive an email from them asking you to register in order for them to be able to recognize your review on your new profile page. Publons may use the Review Data to generate derivative metadata for the benefit of Publons and you as a reviewer, carefully considering the sensitivity of such information. For example, Publons may verify your record as a reviewer by updating your profile published on its
webservice if you have registered for such service or help editors to identify candidate reviewers. Please find the details of processing in Publons’ privacy policy https://publons.com/about/terms

No

**Quality of written English**
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
