Title: Synthesis of crocetin derivatives and their potent inhibition in multiple tumor cells proliferation and inflammatory property of macrophage

Version: 0 Date: 18 Mar 2019

Reviewer: Liqin Wang

Reviewer's report:

The contents and methods of the study reported in this paper are very similar to that published by the author (Reference [10]), except that the synthesized crocetin derivatives are slightly different from that in the published article. So I think that this article is not suitable to BMC Complementary and Alternative Medicine.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
