Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

1. Can all the 12 chemical components mentioned in the manuscript be detected in Danhong injection? In addition, are these 12 ingredients the main active substances in Danhong injection?

2. The figures are not clear. Please notice that all the figures must be submitted in high resolution (300 x 300 dpi or more) TIFF format.

3. It seems that there are no captions under the figures. Please add the captions for each figure.

4. In Table 1, the molecular formula of each compound should be provided and the resolution of the structure must be improved.
