Reviewer's report

Title: Preparing pharmacists to deliver a targeted service in hypertension management: evaluation of an interprofessional training program

Version: 2
Date: 17 July 2015
Reviewer: Lars Småbrekke

Reviewer's report:

There is one minor issue that would benefit on further elaboration:

1: The authors state that this intervention was not resource intensive. This claim should be supported by references considering the fact that in this program 5-6 trainers spent a full day on 17 participants.

Best of luck with your continued contribution to research!

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
