Reviewer's report

Title: Academic Leagues: a Brazilian way to teach about cancer in medical universities.

Version: 2 Date: 3 June 2015

Reviewer: Ali Bikmoradi

Reviewer's report:

It seems to be a raw manuscript. It has some problems for clarification of its voice. Probably, it is a part of a study or perhaps it was better to explain about academic league more or programs or planes or implementations which did for this study. I feel it needs to revise more precisely.

The manuscript needs major revision in my opinion.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
