Reviewer’s report

**Title:** Clinical Psychomotor Skills among Left and Right Handed Medical Students: Are the Left-Handed Medical Students Left Out?

**Version:** 2  **Date:** 3 January 2016

**Reviewer:** Phillip Mucksavage

Reviewer’s report:

Major Revision:
the abstract should stand alone. In the results resection of abstract there is no units or description of the resulted numbers. what do they mean? should be noted in abstract.

Figure should also be labeled with units. Did it take 120 minutes or seconds for them to complete tasks. most of the results should have some units unless based on the likert scale.

**Level of interest:** An article of limited interest

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
