Title: Resident Perceptions of the Impact of Duty Hour Restrictions on Resident-Attending interactions: An exploratory study

Version: 0 Date: 06 Oct 2016

Reviewer: Jennifer Edwards-Johnson

Reviewer's report:

Interesting topic.

I have commented on a few instances of passive voice throughout.

Good exploratory study that would benefit significantly from a larger study size.

The survey is slightly leading. "Attending physicians may be concerned that duty hour restrictions have compromised resident professionalism your experience, what concerns do you think they have" Could have potentially been improved by asking "In your experience, what concerns may attending physicians have regarding duty hour restrictions, if any" Attending physicians may be concerned is negatively leading.
