Title: Perceived Medical School stress of undergraduate medical students predicts academic performance. An observational study

Version: 1 Date: 27 Jun 2017

Reviewer: Lisa Lampe

Reviewer's report:

Thank you. The article is more clearly written. In particular the methodology is now very much clearer.

One small suggestion on page 8: "The "older 20%" were 6 years older in our sample..." is probably more accurately described as: ’The mean age of the "older 20%" was 6 years higher than that for the "younger 80%"'.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
