Reviewer's report:

Dear authors,

Thank you for completing the study and the manuscript. I believe that the topic being discussed i.e. faculty development has been an important and interesting area to explore especially in Asia region context. I would like to congratulate the very well written study describing and exploring current challenges faced by colleagues in countries with limited resources. There are no further specific recommendations substantially. The abstract mentioned that there were 12 themes resulted from the study. I would recommend the four domain being clearly mentioned (context, environment, program, facilitator, participant) in addition to the 12 themes to facilitate better understanding of the reader.
