Reviewer's report

Title: Situational Awareness within Objective Structured Clinical Examination (OSCE) Stations in Undergraduate Medical Training - A Literature Search

Version: 1  Date: 17 Mar 2017

Reviewer: Jianlin Hou

Reviewer's report:

This is an interesting study with informative message. At the same time, some changes may be needed: (1) Consider submitting the manuscript as a review instead of a research article. If not, please state your research questions and hypothesis; (2) Consider improve writing of the manuscript. For example, it seems that there are too many "of" and "the". Furthermore, consider shortening long sentences (e.g. line 112-115 of page 4, line 338-341 of page 13) to make it easier for readers to follow your ideas. (3) What IDEA stands for in Page 12? (4) Consider rewriting the Discussion in your own words and avoid presenting too many results of other studies.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
