Reviewer’s report

Title: Rating of physiotherapy student clinical performance: Is it possible to gain assessor consistency?

Version: 0 Date: 09 Dec 2018

Reviewer: Sue Murphy

Reviewer's report:

This is a well written and thoughtfully completed study. A few minor clarifications would be helpful:

1) line 66 - what is the definition of "orthopedics" vs "musculoskeletal"?

2) Line 106 - what "purposive sampling" method was used?

3) line 220 - "assessment levels" is repeated

The discussion section would benefit from being fleshed out a little more.

Thank you for considering these remaining suggestions.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
