Title: Application of a three-session-procedure based on experiential learning in a tooth brushing course for Chinese dental students

Version: 2 Date: 20 Jan 2019

Reviewer: Wendy Hartford

Reviewer's report:

The changes that have been made have clarified by review comments. The following grammatical changes, and deletion would complete my review:

Abstract:

Page 2: line 35: "…which may help cultivating" change to "…which may help cultivate"

Page 13: line 13: "The students was.." change to "The students were…"

Page 17: line 37/38: "which showed that the students obtained their own opinion after experience and self-evaluation." This doesn't appear to follow from the first part of the sentence and should be deleted.
