Reviewer's report:

Thank you for this opportunity to review your manuscript. I thought that overall, the manuscript was well written and the methods were well executed. My concern, however, is that the instrument is very specific to the workshop and does not refer to a broader context of learning. I fear the generalizability of this work is very limited. This needs to be highlighted as a limitation and perhaps suggestions made as to how to increase its generalizability. I find this to be a significant limitation and issue with the manuscript.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
