Reviewer’s report

Title: Implementation of a large-scale simulation-based cardiovascular clinical examination course for undergraduate medical students – a pilot study

Version: 0 Date: 01 Jul 2019

Reviewer: Yesim Senol

Reviewer's report:

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached) The Introduction is poor. To start an article with a one paragraph quote from another source is odd. Far better that the authors start with some sentences of their own and then perhaps make a brief reference to this source. The article is more like the introduction of the program and This is not a research article

Level of interest: An article of limited interest

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript
