Title: Medical Students’ Perception on Fecal Microbiota Transplantation

Version: 1 Date: 02 Aug 2019

Reviewer: Phillippa Poole

Reviewer's report:

The authors have addressed most of my concerns and the paper is lot clearer.

The only remaining point is to consider some commentary on how the results of this survey are generalisable to medical educators, i.e. inform those in charge of the medical curriculum as to what new technologies to include, when (i.e how soon after they are identified), and how best to do that?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
