Title: The Impact of Gender and Academic Achievement on the Violation of Academic Integrity for Medical Faculty Students, a descriptive cross-sectional survey study

Version: 3  Date: 01 Oct 2019

Reviewer: Nourhan Aly

Reviewer's report:

I would like to thank the authors for responding to all comments.

Minor comments:
1. I think the author should have used the 2 previous studies conducted in Turkey (on nursing students) in the discussion part (whether their findings agree with yours or not).
2. Sixth year students had higher tendency towards academic dishonesty when compared to all other years and the multiple comparison revealed statistically significant difference between 4th and 5th years when compared to 6th year students. Can you explain this finding? (your own assumption about why this occurred?)

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further
assessment in your comments to the editors.

I am able to assess the statistics
