Reviewer’s report

Title: New Doctor-patient Communication Learning Software to Help Interns Succeed in Communication Skills

Version: 0 Date: 19 Jul 2019

Reviewer: Peter Anderson

Reviewer's report:

This manuscript describes the development of Communication Learning Software and a trial using this program to improve doctor-patient communications. Doctor-patient communication is a very timely issue/problem not only in China but around the world. The authors should be lauded for attempting to develop tools to improve this much needed educational activity. Unfortunately I am not able to adequately review this study design, results and discussion due to poor English in this manuscript. Many sentences simply do not make sense and I cannot decipher what the authors meant to say.

I would recommend that the authors engage a native English speaker to help them re-write this manuscript using proper English and proper experimental descriptions.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
Quality of written English
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organisation that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
