Reviewer’s report

Title: Debate: Why should gender-affirming health care be included in health science curricula?

Version: 2 Date: 29 Nov 2019

Reviewer: Timo Nieder

Reviewer's report:

Basically, I agree with the majority of the authors' positions. I also think that the manuscript has benefited a great deal from the revision.

I still have my troubles with the format. Neither the methods are described in detail and repeatable (e.g. the literature search and the literature selection), nor the way the authors come to their conclusions based on the literature.

However, to what extent these requirements apply to a debate, I plead with the editors to decide.
