Title: At the cross-roads of participatory research and biomarker discovery in autism: The need for empirical data

Version: 5 Date: 7 October 2015

Reviewer: Sarah Parsons

Reviewer’s report:

Thank you very much for responding positively to these minor suggestions and for labelling your changes very clearly. These look fine to me and the paper is much clearer as a result of all the revisions made. I look forward to seeing this published.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
