Title: Must we remain blind to undergraduate medical ethics education in Africa?: a cross-sectional study of Nigerian medical students

Version: 1  Date: 18 Sep 2017

Reviewer: David Musick

Reviewer’s report:

The authors have satisfactorily responded to the previous review of the paper, with a few minor corrections still being needed as follows:

Line 40: take out "it means that"

Lines 58-59: Take out "not" and change "unrelated" to "related" in order to eliminate a double negative from the sentence

Line 78: suggest changing "lent weight to" to "heightened"

Line 110: take out "some"

Line 194: take out "even"

Line 221: take out "even"

Line 242: add "be" after word "not"

Lines 268-269: change "in" to "on"

Line 276: remove "very"

There are still a few places where the word "majority" is not preceded by an appropriate word such as "the" or "a." These should be corrected, as previously suggested. Lines 135, 137, 175, 185
