Reviewer’s report

Title: Lessons learned from implementing a responsive quality assessment of clinical ethics support

Version: 0 Date: 17 Jun 2019

Reviewer: Ana Borovecki

Reviewer's report:

The paper deals with the topic Clinical Ethics services. It presents qualitative evaluation of this Responsive Quality Assessment (RQA) project. The overall objective of the project was to both reflect upon and foster the quality of CES in Dutch health care organizations through a mutual learning process. The evaluation was done by analysis of 10 semi structured interview with 10 out of 22 people participating in this project. Well written qualitative study. Acceptable for publication.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
