Title: Assessing Attitudes Towards Medical Assisted Dying in Canadian Family Medicine Residents: A Cross-Sectional Study

Version: 1 Date: 29 Nov 2019

Reviewer: Mathieu Bernard

Reviewer's report:

I would like to thank the authors of this manuscript for having carefully considered all the remarks and comments from all the reviewers. I have only minor suggestions now:

1. I would clearly mention in the text that PGY 3 residents are excluded because some of them could have chosen a specialization in palliative care ("residents in enhanced skills programs" may not be sufficiently explicit).

2. If I am not wrong, the names of the supplementary tables 1 and 2 have not been changed as mention in their response to comment 15.

3. The first sentence under the tables explaining the aim of the regression analyses is very useful but I would rather insert it in the text and not directly under the table.

Once again, thank you to authors for the work realized in view of this second submission.
