Reviewer’s report

Title: Knowledge and Attitudes of Physicians toward Research Ethics and scientific misconduct in Lebanon

Version: 1 Date: 17 Mar 2020

Reviewer: Zurina Mahadi

Reviewer's report:

The corrected conclusion still does not focus on the researchers' knowledge, attitude, awareness and perceptions but still focusing on the impacts of research ethics training and the function and role of research ethics committee which were not the main subjects of the research as reflected in the questionnaires. The recommendation from the author for the importance of attending the research ethics training should be derived from the findings on the knowledge, attitude, awareness and perceptions of the researchers.

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
