Thank you for making the corrections from the previous reviews. Great work.

I noticed a couple of grammatical errors that need to be corrected. 1. Line 33 please change "was" to "were" used. 2. Line 358 ...while in the "presents" study... please change to "present".

I would also encourage further research on moral distress to use the Measure of Moral Distress for Health Care Professionals (MMD-HP) instead of the MDS-R (which is now dated). Please add a statement regarding how to integrate your findings of the unique moral distress items for pediatric oncology for further refinement of the MMD-HP not the MDS-R.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
