Reviewer's report

Title: Justified Granulation Aided Noninvasive Liver Fibrosis Classification System

Version: 6  Date: 28 March 2015

Reviewer: Lionel Rostaing

Reviewer's report:

In this revised version of the manuscript of Bernas M et al. the authors have addressed almost all my concerns/questions except one. Their tool SHOULD be validated in an independent cohort of liver patient from another institution.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
