Title: Web-based family history assessment for colorectal cancer (CRC) risk analysis - satisfaction and efficiency comparison of two interfaces

Version: 3 Date: 14 June 2015

Reviewer: Constance Johnson

Reviewer's report:

The authors have addressed my major and minor concerns. The authors should consider adding a subtitle to the Limitations section titled: limitations. It is unclear that the numbers provided in the subjects section are numbers and would format them as "(n=xx)".

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
