Reviewer’s report

Title: The medical diagnosis as a linguistic game

Version: 2 Date: 31 Mar 2017

Reviewer: John Skelton

Reviewer's report:

This is now clear, and much easier to understand - and as a result is interesting to read. I very much take the point in the Discussion about the rapid development of computing, and the difficulty of predicting how professional life will change as a result. Thoughtful generally.

However, it will need significant editorial support with the language.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
